

*THE GEORGIA BREAST CANCER COALITION FUND
PRESENTS*

The Faces of Breast Cancer

**1 in 8 women will
experience breast
cancer
in her lifetime.**

- Learn common myths & misconceptions surrounding breast cancer
- Discover the basic science of this devastating disease
- Hear from breast cancer survivors and medical experts

Each year more than 6,000 women in Georgia are diagnosed with breast cancer. This disease is devastating, not only for these women, but their families, and our communities.

Please join The Georgia Breast Cancer Coalition Fund at an interactive workshop—learn the basics of breast cancer, explore the common myths and misconceptions surrounding this disease and discover healthy lifestyle choices that can help prevent it.

Workshops are held at local churches, businesses and community organizations. All workshops are led by a trained breast cancer advocate and oncology nurse, and are free and open to the public. If you are interested in hosting a workshop in your community, please contact our office at 404.633.6499.

Georgia Breast Cancer Coalition

GABreastCancer

Since 1994, The Georgia Breast Cancer Coalition Fund (GBCCF) has been instrumental in breast cancer education and advocacy. GBCCF was formed by individuals who came together for a common cause—to fight to eliminate breast cancer for our future generations.

Through our collaborative efforts with the National Breast Cancer Coalition and other breast cancer advocates, dollars earmarked for breast cancer research have quadrupled and the fight to eradicate breast cancer has been brought to the forefront of the public's awareness.
