Georgia Breast Cancer Coalition

GABreastCancer

Each year more than 6,000 Georgian women are diagnosed with breast cancer. The disease is devastating, not only for these women, but their families, and our communities. Imagine, for a moment, people coming together to *make a real difference* in the lives of these women! Imagine what you could do, armed with essential tools to advocate on behalf of breast cancer patients, current and future.

Please join The Georgia Breast Cancer Coalition Fund and The Morehouse School of Medicine for a free Breast Cancer Advocacy Workshop. Each workshop includes powerful presentations from breast cancer survivors, lobbyists, legislators and citizen advocates. Your attendance will arm you with essential tools to make a difference in the lives of all women in Georgia. Because you *CAN* make a difference!

Since 1994, The Georgia Breast Cancer Coalition Fund (GBCCF) has been instrumental in breast cancer education and advocacy. GBCCF was formed by individuals who came together for a common cause—to fight to eliminate breast cancer for our future generations.

Through our collaborative efforts with the National Breast Cancer Coalition and other breast cancer advocates, dollars earmarked for breast cancer research have quadrupled and the fight to eradicate breast cancer has been brought to the forefront of the public's awareness.

to educate

to advocate

to eradicate

This workshop is made possible through the Centers for Disease Control and Prevention Grant number 5U58DP000984-05
